

**Coline Mounier**

**PhD Student**

Team "Neuronal Signaling and Gene Regulation"

Lab. Neuroscience Paris Seine/IBPS

CNRS UMR8246, INSERM UMRS-1130, Sorbonne University, Paris France

## **EXPERIENCE**

**2019-present :**

- PhD Student, Sorbonne University, Neuroscience Paris Seine – Funding : AFM-Téléthon
- Teaching Assistant in Biochemistry and Molecular Biology, Sorbonne University

**2018-2019 :** Research Internship Master 2, Sorbonne University, Neuroscience Paris Seine

**2018 :** Research Internship, McGill University, Douglas Mental Health University Institute, Canada

**2017 :** Research Internship, Sorbonne University, Neuroscience Paris Seine

**2016 :** Research Internship, Sorbonne University, Biological Adaptation and Ageing

## **EDUCATION**

**2019-present :** PhD Student, Sorbonne University, ED158 Cerveau, Cognition, Comportement

**2017-2019 :** Master degree in Neuroscience, Sorbonne University

**2014-2017 :** Bachelor degree in Biology, Sorbonne University

## **PUBLICATION**

Kacher et al. (2019) CYP46A1 gene therapy deciphers the role of brain cholesterol metabolism in Huntington's disease. *Brain*. 142(8):2432-2450
